About

Diplosphere is proud to host, with the support of the New Zealand National Commission for UNESCO, the first national conference on international relations featuring voices often missing in the public debate: Māori, Iwi, business, academic, and youth leaders will stimulate public discussion on current affairs such as the pandemic response, conflicts, climate change, the rise of Asia, and the international system. Tirohanga Māori (Māori world view) will help New Zealand firmly moor its independent values-based foreign policy.

The conference raises the question: What does “western values” mean in Aotearoa New Zealand of 2022? It will explore the cultural, trade, and political links that have long existed between Māori and the Asia Pacific region, and what the future holds.

Travel with us as we explore a variety of destinations from our place in the world and our role as stewards of the planet, to the stars and into the future, with our values as our compass. This is a unique chance for you to be inspired, look forward, exchange ideas, and connect with leading experts and new voices.

09:45-10:45 SESSION 1 - DESTINATION OUR PLACE IN THE WORLD: WHAT ARE OUR VALUES, ANYWAY?

Manaaki – *Kindness or the reciprocity of goodwill*

What does the term 'Western values' mean in Aotearoa New Zealand today when it comes to foreign policy? Foreign Minister Mahuta said 'our values act as fixed markers to guide our way towards the peaceful and prosperous future we seek'. But what are our values, anyway? And what does make Aotearoa New Zealand unique?

Chair: Matthew Gifford BEM, Transition Unit Hauora Māori, Department of the Prime Minister and Cabinet

Speakers:

- Martin Wikaira, Director Maori Policy Unit, MFAT
- Ethan Jerome-Leota, NZ National Commission for UNESCO Youth Chair, Legal Advisor, Waikato Tainui
- Warkina Tujuba, Head of Youth and Engagement, African Community Council Wellington

Kaitiaki – *Protectors and stewards of our intergenerational wellbeing*

The most pressing international issue of our times is climate change which affects us all, but especially people living on islands.

How can we challenge orthodoxies and think bigger about a better more sustainable future?

Chair: Timothy Naish, Professor in Earth Sciences, Antarctic Research Centre, Te Herenga Waka, VUW

Speakers:

- ▶ Dr Dan Hikuroa, UNESCO NZ Culture Commissioner, Senior Lecturer, University of Auckland
- ▶ Prof Rawinia Higgins, Deputy Vice-Chancellor (Māori), Te Herenga Waka, VUW

- ▶ Nathalie Whitaker, Cofounder & CEO, Toha

12:15-13:15 SESSION 3 - DESTINATION THE STARS: TRADE, TECH & SUCCESS

Mahi tahi and kotahitanga – *Collective benefits and shared aspiration*

Rich with a long history in international trade, the Māori economy is valued at around \$70 billion and is a critical contributor to New Zealand's trade and economic well-being. Berl's latest report released this year, Te Ōhanga Māori 2018, says 'the future is Māori'. What does a 70 billion dollar Maori economy mean for New Zealand and where does it head next? How is the Maori relationship with Asia and China different? What does Maori success in trade and tech look like? Who are the stars of today and tomorrow?

Chair: Amber Marie Naveira, CEO & Co-Founder, The Granary
